→ Students coming to UZH for projects (no courses) as invited visiting students may apply up **until 2 months before the planned starting date** (online application completed and submitted, including all documents). **Students who need a visa for Switzerland should submit their application earlier, because the visa application process may take up to 3 months** (in case of citizens from Iran or Pakistan even longer) and cannot be started without the official UZH acceptance letter. Kindly note that your confirmation of supervision is

required to complete the student's application. Please note that for a **UZH scholarship**, the monthly scholarship amount must not exceed CHF 2'500 in order for UZH to apply for the visa through the expedited procedure.

→ Please return the confirmation (duly completed and signed as a scan of good quality) to the applicant. The student needs to upload this confirmation in our online application portal.

→ Please inform Global Student Experience (incoming@int.uzh.ch) immediately should there be any changes in the duration of the thesis/research project or regarding the supervision as indicated above.
